ICMR-NATIONAL INSTITUTE OF CHOLERA AND ENTERIC DISEASES
INDIAN COUNCIL OF MEDICAL RESEARCH
(ICMR)

A tribute to Dr. Sudhir Chandra Pal

Dr. S.C. Pal became Director of the Institute in 1974. The next eighteen years witnessed an exponential growth of ICMR-NICED to a remarkable height. Under his able leadership the Institute came to be recognised as one of National and International repute.

Being possessed with operational research skill, Dr. Pal showed the world the path of effective implementation of oral rehydration therapy (ORT) programme. Although, he was a medical Microbiologist by profession, Dr. S.C. Pal had an exceptional understanding of epidemiology. Such unique combination helped him to bring new insight on various aspects of diarrheal diseases and their management. Dr. Pal dedicated his life for the cause of public health and led a team of scientists who contributed immensely in saving lives of millions of children who otherwise would have succumbed to death from diarrhoea.

As a visionary, Dr. S.C. Pal, in the late 1980s, pioneered HIV-research in eastern and north eastern parts of India. To this man, who will remain immortal because of his pioneering work, we pay our most humble tribute from the ICMR-NICED family.
